## MSCA schemes: general overview

# The Union's reference programme for doctoral education and postdoctoral training

## Excellence

- ▣ individual fellows
- ▣ collaborations fostered
- ▣ knowledge transferred
- ▣ R&I methodologies applied
- ▣ the research conducted
- ▣ training, supervision and career guidance provided

## Mobility

**Physical mobility:** researchers who receive funding have to move from one country to another to acquire new knowledge, skills and competences, and develop their research career.

## Open to the world

- 7 strong international dimension
- 7 to set-up strategic collaborations worldwide
- 7 attracts foreign talents to Europe

# Bottom-up

# Structuring effect

quality of researchers' training

research capacity

fairer and more attractive working conditions

international and inter-sectoral partnerships and networks

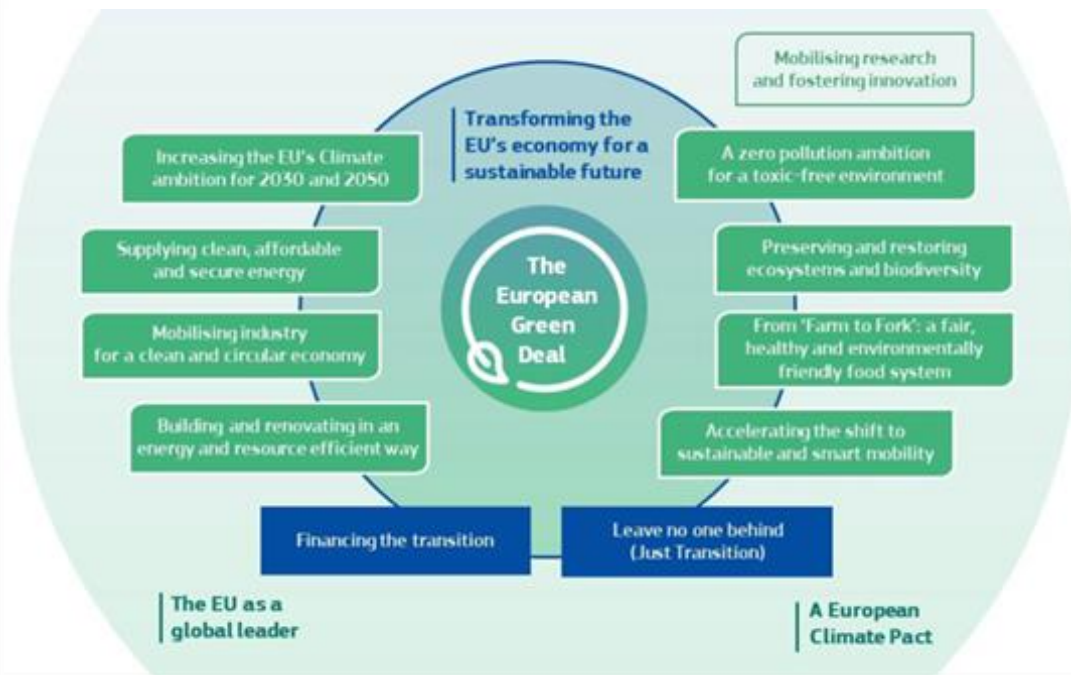

# Open Science & RRI

The MSCA endorse Open Science and Responsible Research and Innovation (RRI)

# Green Deal and other EU priorities

European Green Deal

United Nation's 2030 Agenda and the Sustainable Development Goals

# Synergies

**European Union**  
European Regional  
Development Fund

**European Union**  
**European Social Fund**  
Investing in jobs and skills

# MSCA intervention areas

- 
- 1. Nurturing Excellence through Mobility of Researchers across Borders, Sectors and Disciplines
  - 2. Fostering new Skills through Excellent Training of Researchers
  - 3. Strengthening Human Capital and Skills Development across the European Research Area
  - 4. Improving and Facilitating Synergies
  - 5. Promoting Public Outreach

## Actions

- 1 MSCA Doctoral Networks
- 2 MSCA Postdoctoral Fellowships
- 3 MSCA Staff Exchanges
- 4 MSCA COFUND
- 5 MSCA and Citizens

## Definitions

- 🏢 **Academic sector:** public or private higher education establishments awarding academic degrees, public or private non-profit research organisations and International European Research Organisations (IERO).
- 🏢 **Non-academic sector:** any socio-economic actor not included in the academic sector and fulfilling the requirements of Horizon Europe Rules for Participation.

## Type of participation

Legal entities that sign the grant agreement (either directly or through an accession form) and have the responsibility for the proper implementation of the action.

**Beneficiaries**

Entities which participate in the action, but without the right to charge costs or claim contributions. They contribute to the implementation of the action, but do not sign the grant agreement.

**Associated Partners**

Organisations with an established capital or legal link with the beneficiary, which is not limited to the action nor specifically created for its implementation.

**Associated partners

# MSCA Postdoctoral Fellowships

## Main Objective

To enhance the creative and innovative potential of researchers **holding a PhD**, wishing to acquire new skills through advanced training, international, interdisciplinary and inter-sectoral mobility.

## Key messages

- ▣ an original and personalised research project
- ▣ to foster excellence through training and mobility
- ▣ to equip researchers with new skills and competences in order to identify solutions to current and future challenges
- ▣ Postdoctoral researchers are encouraged to engage with society at large to make the results of their research visible to citizens and to involve citizens, civil society and end-users in co-creation of research content when relevant.

## Who is eligible?

- 🏠 **Postdoctoral researchers**
- 🏠 Mobility rule
- 🏠 Supported researchers can be of any nationality
  - Global Postdoctoral Fellowship: nationals or long-term residents of EU Member States or Horizon Europe Associated Countries
- 🏠 Supported researchers must have a **maximum of 8 years full-time equivalent experience in research**
  - Years **outside research and career breaks** will not be counted

# Maternity & Paternity

**Maternity:** for each child born prior to the call deadline, 18 months will be deducted from the experience in research unless the applicant can document a longer parental leave prior to the call deadline.

**Paternity:** for each child born prior to the call deadline, the documented time of parental leave taken until the call deadline will be deducted from the experience in research.

## Mobility rule

Recruited researchers must not have resided or carried out their main activity (work, studies, etc.) in the country of the beneficiary (for European Postdoctoral Fellowships), or the host organisation for the outgoing phase (for Global Postdoctoral Fellowships) for more than 12 months in the 36 months immediately before the call deadline.

## Reference Documents

### Grants

This page includes reference documents of the programmes managed on the EU Funding & Tenders portal starting with legal documents and the Commission work programmes up to model grant agreements and guides for specific actions.

Please select the programme to see the reference documents.

### Procurement

Reference Documents related to tendering opportunities are published on TED eTendering in the calls for tenders.

## Secondments

in Europe and beyond

### European Postdoctoral Fellowships

one-third

fellowship duration

### Global Postdoctoral Fellowships

one-third

of the outgoing phase

A maximum of *three months* of such secondments can be spent at the start of the project at the beneficiary (or associated partners linked to the beneficiary), allowing the researcher to spend time there before going to the associated partner in the Third Country. This period of maximum three months will be considered as part of the outgoing phase.

# Placements in the non-academic sector

PLACEMENT

**associated partners**

## Training activities

The training activities implemented under the Postdoctoral Fellowships must include training for key **transferable skills**, foster innovation and entrepreneurship, (e.g. commercialisation of results, Intellectual Property Rights, communication, public engagement and citizen science) and promote Open Science practices (open access to publications and to research data, FAIR data management, etc.).

## Evaluation panels

In Postdoctoral Fellowships, proposals will be evaluated by one of **eight 'main evaluation panels'**:

- ❏ Chemistry (CHE),
- ❏ Social Sciences and Humanities (SOC),
- ❏ Economic Sciences (ECO),
- ❏ Information Science and Engineering (ENG),
- ❏ Environment and Geosciences (ENV),
- ❏ Life Sciences (LIF),
- ❏ Mathematics (MAT),
- ❏ Physics (PHY).

**Each panel will establish two ranked lists, one for European and one for Global Postdoctoral fellowships.**

## Distribution of budget

- ↗ European and Global Postdoctoral Fellowships
- ↗ The distribution of respective available funds will be proportional to the number of eligible proposals received in each main evaluation panel.

## MSCA Doctoral Networks (DN)

## Main Objective

to **train** creative, entrepreneurial, innovative and resilient doctoral candidates, able to face current and future challenges and to convert knowledge and ideas into products and services for economic and social benefit.

- right combination of research-related and transferable competences

## Scope

- ↗ The Doctoral Network scheme aim to implement **DOCTORAL PROGRAMMES**, by partnerships of universities, research institution and research infrastructures, SMEs and other entities from **different countries across Europe and beyond**.
- ↗ Doctoral Networks are **open to the participation** of organisations **from third countries**, in view of fostering strategic international partnerships for the training and exchange of researchers.

## Expected impact

- ▣ Strengthen Europe's human capital base in R&I by training highly-skilled doctoral candidates;
- ▣ Improve the attractiveness of researchers' careers notably through better working and employment conditions of doctoral candidates in Europe;
- ▣ Enhance talent and knowledge circulation across the R&I landscape, through international, inter-sectoral and interdisciplinary mobility;
- ▣ Increase Europe's attractiveness as a leading research destination;
- ▣ Enhance the quality of R&I contributing to Europe's sustainable competitiveness;
- ▣ Establish sustainable collaboration between academic and non-academic organisations;
- ▣ Foster the culture of open science, innovation and entrepreneurship.

## Participating organisations

Applications must be submitted by a consortium including **at least three independent legal entities**, each established in a different EU Member State or Horizon Europe Associated Country and with at least one of them established in an EU Member State.

# Participating organisations

associated partner or  
an associated partner linked to a beneficiary

## Budget

40%

of the EU contribution may be allocated to beneficiaries in the same country or to a single International European Research Organisation (IERO) or international organisation

## MSCA Doctoral Networks are encouraged to lead to Industrial or Joint Doctorates.

Through Industrial Doctorates, doctoral candidates will step outside academia and develop skills in industry and business by being jointly supervised by academic and non-academic organisations, both of which can be established in the same EU Member State or Horizon Europe Associated Country.

**DN- Industrial Doctorates**

Joint Doctorates represent a highly integrated type of international, inter-sectoral and multi/interdisciplinary collaboration in doctoral training. They lead to the delivery of joint, double or multiple doctoral degrees recognised in at least two EU Member States or Horizon Europe Associated Countries.

## Recruited researchers

- ▣ **doctoral candidates**, i.e. not have been awarded a doctoral degree at the date of the recruitment
- ▣ can be of any nationality and
- ▣ must comply with the **mobility rule**
- ▣ must be enrolled in a doctoral programme leading to the award of a doctoral degree in at least one EU Member State or Horizon Europe Associated Country, and for Joint Doctorates in at least two.

## Mobility rule

*Recruited researchers must not have resided or carried out their main activity (work, studies, etc.) in the country of the recruiting beneficiary for more than 12 months in the 36 months immediately before their recruitment date.*

## Training activities

- ❏ MSCA Doctoral Networks should exploit **complementarities** between participating organisations and foster **sharing of knowledge** and **networking** activities for example through the organisation of workshops and conferences.
- ❏ Proposed training activities should respond to well identified needs in various R&I areas, with appropriate references to inter- and multidisciplinary fields and follow the EU Principles for Innovative Doctoral Training.
- ❏ They should be primarily focused on developing **new scientific knowledge** through original research on personalised projects.

## Training activities

- ❏ Doctoral Networks will develop substantial **training modules**, including digital ones, addressing **key transferable skills** and competences common to all fields and fostering the culture of Open Science, innovation and entrepreneurship.
- ❏ Doctoral Networks should adequately prepare doctoral candidates for increased research collaboration and information-sharing made possible by new (digital) technologies (e.g. collaborative tools, opening access to publications and to research data, FAIR data management, public engagement and citizen science, etc.).

## Intersectoral secondments

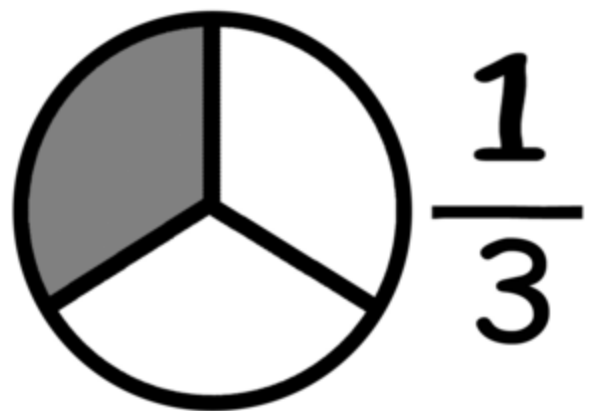

Intersectoral secondments of researchers to other participating organisations, including in third countries, are **encouraged** when relevant, **feasible** and **beneficial** for the researchers and in line with the project objectives

This will increase the **employability** of the researchers outside academia

## Secondments

one-third

Secondments are eligible for up to one third of the actual months spent implementing the research training activities under the action

*This limitation does not apply in the case of Industrial Doctorates and Joint Doctorates.*

## Career Development Plan

- ❏ A Career Development Plan must be established jointly by the supervisor and each recruited doctoral candidate.
- ❏ In addition to research objectives, this plan comprises the researcher's training and career needs, including training on transferable skills, teaching, planning for publications and participation in conferences and events aiming at opening science and research to citizens.
- ❏ The plan, established at the beginning of the recruitment, should be revised (and updated where needed) within 18 months.

## MSCA Staff Exchanges (SE)

## Main Objective

To promote innovative **international, inter-sectoral and interdisciplinary** collaboration in research and innovation through **exchanging staff**, and **sharing knowledge** and ideas at all stages of the innovation chain.

## Key aspects

- ↗ International, inter-sectoral and interdisciplinary mobility of R&I staff (“secondments”)
- ↗ Knowledge transfer between participating organisations
- ↗ Collaboration between the academic and non-academic sectors (including SMEs)
- ↗ Cooperation across the globe

## Expected impact

- ↗ Increase international, inter-sectoral and interdisciplinary mobility of research staff within Europe and beyond through collaborative research networks and activities;
- ↗ Strengthen the R&I human capital base in Europe and beyond;
- ↗ Increase Europe's attractiveness as a leading destination for R&I;
- ↗ Contribute to Europe's competitiveness and growth through high-quality R&I;
- ↗ Foster the culture of open science, innovation and entrepreneurship.
